

HYT WELCOMES DOMINIQUE RENAUD

Over the past 18 months, HYT has experienced an exponential growth, moving from three to 33 people working for the brand and from five to 19 watch references in such a short period of time. To help with the brand's astounding expansion and creativity, HYT has recently recruited the legendary Dominique Renaud to be part of the team as a Master Watchmaker.

Renaud will collaborate with HYT to find new ways to combine fine watchmaking and fluidic technologies by leading HYT's Fine Watchmaking and Special Projects departments at the company's modern new headquarters in Neuchâtel. "We have some innovative ideas under development, advancements that will bring much more power to the motorization of HYT's movements," commented Vincent Perriard, CEO of HYT. "This, in turn, will allow us to introduce even more complications that unite mechanics and liquid in one wristwatch."

A concept watch specialist, Renaud began his career at Audemars Piguet's movement workshop and moved on to found RENAUD ET PAPI SA with Giulio Papi. In 2000, Renaud left the company to create his own firm with Luigino Torrigiani, DOMINIQUE RENAUD SA, with a focus on the conception, production and commercialization of innovative watches. With Renaud's expertise, we're bound to see many more innovations from HYT in 2015, so stay tuned to *Revolution* for more! ★
