The story of Dracula is one we're all familiar with; the undeniable charisma shrouded with mystery makes the immortal character such a popular icon across the globe. Inspired by this XIX century legend, the H1 Dracula DLC is imbued with the elegance of the vampires backed up by immortal technology to give you the style you thirst for.

**HYT** PRESS REVIEW

Lecteur

The sleek black alligator strap is maliciously decorated with red veins creating that dark mysterious character the timepiece pays tribute to. The iconic dial design of the brand shows a new face with the menacing color palette of the watch. The composed persona of the watch reveals the simple sensuality on your wrist, making it a subtle piece to your style that will hold on to any attention it catches.

Holding the brands exclusive HYT caliber, mechanical hand-wound with 28,800 vph the timepiece has an impressive 65-hours power reserve. The signature unstructured fluid hours of the brand's timepieces combined with the watch's overall persona shed a whole new light to the red liquid of the dial, perfectly portraying one of the most classic characters of all time. The H1 Dracula DLC is limited to 50 pieces, for more information visit their website at [www.hytwatches.com](http://www.hytwatches.com) and watch the H1 – Dracula DLC video [here!](#)
