The H1 Titanium by HYT is Carmelo Anthony's pick for Haute Time Watch of the Day. HYT merges fine watch making, engineering and fluid mechanics to create a watch that uses a fluorescent liquid to tell time in this amazing timepiece.

The HYT H1 Titanium model has brushed and satin finished surfaces and a case measuring 48.8mm. The movement is a mechanical hand-wound exclusive HYT caliber with a 65-hour power reserve and retrograde fluid hours, minutes and seconds functions.

The HYT H1 Titanium is shown here on a black stitched canvas strap, lined with leather and is also available in a black DLC model, a pink gold model or DLC and pink gold combined.
