Greg Simonian's Picks for The Leading Indicators of SIHH

BY GREG SIMONIAN | HAUTE TIMEPIECES | MARCH 9, 2016

Watch manufacturers who present their new models at the annual Salon International de la Haute Horlogerie (SIHH) fair each January, in Geneva, set the stage for the year to come. These first timepieces out of the gate often represent years of work behind the scenes, but to the retailers visiting the fair these watches are the embodiment of the tastes and trends of the here and now. Westime, with four boutiques in Southern California, is the official retail partner for 10 watch manufacturers who participate in the prestigious SIHH fair. Here are some of my favorite new watches from these 10 top brands:

HYT

SKULL BAD BOY

A new black 50-piece limited edition of HYT's menacing Skull utilizes an ink-black fluid to represent the time. Though it's not visible in the dark, the black liquid suits the spirit of the new 51mm Skull perfectly. A combination of steel and carbon gives the dial itself a Damascus steel effect, and the eye sockets contain the power reserve indicator and the seconds disc.
